

NFI Parts™ Expands Clean and Protect Product Line

Louisville, Kentucky, USA – May 11, 2020: (TSX: NFI) The Aftermarket Parts Company, LLC, operating as NFI Parts™ (“NFI Parts™”), a subsidiary of NFI Group Inc. (“NFI”), has added more offerings to its catalogue to increase safety and cleanliness for its motor coach and public transportation customers.

NFI Parts™ takes pride in its ability to keep people moving as a provider of parts and support for the coach and transit industries. NFI Parts™ remains open for business and has focused efforts on product offerings to help operators protect drivers and passengers as well as clean and disinfect vehicles.

“We’ve seen great response to these new products and collaborating with our customers has been a key factor in the success of our Clean and Protect product line,” said Brian Dewsnup, President of NFI Parts™. “Our customers are 100% committed to the safety of their drivers and passengers and many have placed orders for these products over the last two weeks.”

To ensure customers have access to the solutions they need, the Clean and Protect product line now includes:

- Driver Protection Barriers
 - More choices for all makes and models of buses and coaches
- UV lights for use in HVAC systems to kill viruses and bacteria
 - Mounts inside the ductwork and sanitizes air with UVC light
- Higher MERV rated Air Filters
- Fresh Air Ventilation
 - New retrofit kit turns roof hatches into ventilation fans to keep air fresh inside the vehicle
- Retractable Partition
 - Can be installed in various spots throughout the vehicle and used as a droplet barrier
- Retractable Belt Partition
 - Section off seats or full sections of vehicles to promote social distancing
- Cleaning and Disinfecting Products
- Hand Sanitizer and Dispensers
- Disposable, Individually Wrapped Masks and Dispensers
- Fogging equipment and solution

“The fogging products have been something we’ve gotten a number of questions on,” continued Dewsnup. “Our option is hand-held and does not require special PPE to use. Five vehicles can be sanitized before you need to refill.”

NFI Parts™ is working closely with fellow NFI OE businesses, New Flyer, MCI, ADL and ARBOC while staying engaged with industry associations such as ABA, UMA and APTA, to both provide guidance and respond to requirements that are of the highest priority to customers.

The strong partnership between NFI Parts™ and its supply network has resulted in inventory on these high demand items to be available for purchase. Due to the popularity of the Clean and Protect products, customers are encouraged to reach out to their NFI Parts™ customer service representative as quickly as possible to minimize lead times.

For more details on the Clean and Protect line, please visit: <http://nfi.parts/cleanandprotect/>

NFI Parts™ is the parts arm of NFI, providing replacement parts for New Flyer transit buses, MCI motor coaches, ARBOC cutaway vehicles, as well as the product lines for the previously acquired NABI transit bus and Orion parts businesses. Additionally, NFI Parts™ has extensive cross references for parts that are common with other bus, coach, and cutaway product lines. NFI Parts™ has a mature supply base and established relationships with over 1,000 suppliers.

With over 90 years of parts experience, NFI Parts™ supports a combined fleet of 75,000 active transit buses, motor coaches and cutaway vehicles. NFI Parts™ serves more than 5,000 customers annually. NFI Parts™ understands the operational importance of getting the right parts, on time, all the time; allowing customer maintenance teams to focus on repairs and returning vehicles to service quickly.

About NFI

With 9,000 team members operating from more than 50 facilities across ten countries, NFI is a leading independent global bus manufacturer providing a comprehensive suite of mass transportation solutions under brands: New Flyer® (heavy-duty transit buses), Alexander Dennis Limited (single and double-deck buses), Plaxton (motor coaches), MCI® (motor coaches), ARBOC® (low-floor cutaway and medium-duty buses), and NFI Parts™. NFI buses and motor coaches incorporate the widest range of drive systems available including: clean diesel, natural gas, diesel-electric hybrid, and zero-emission electric (trolley, battery, and fuel cell). In total, NFI now supports over 105,000 buses and coaches currently in service around the world. NFI common shares are traded on the Toronto Stock Exchange under the symbol NFI.
