USA and Canada

Small Parcel

Small Parcels

Shipments are considered as small parcels if they meet the following criteria:

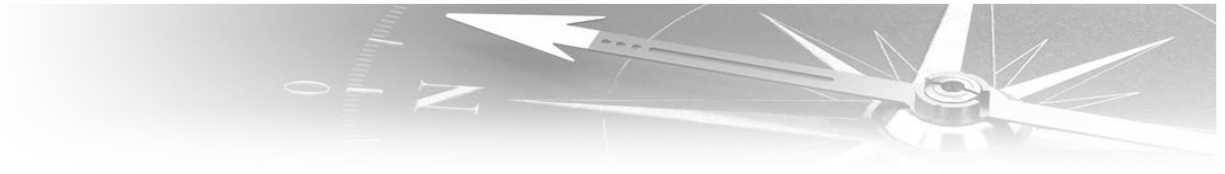

- Maximum 6 packages weighing up to 150lbs total per day.
- Maximum length is 96 inches
- Maximum width and height 24 inches
- Length and girth combined should not exceed 165 inches
 $\text{Length} + (\text{Girth} = W(\text{in}) * 2 + H(\text{in}) * 2)$

The table below summarizes the preferred shipment method for small parcels.

More than 6 packages and/or weighing over 150 lbs. must be palletized and shipped LTL.

Small Parcel Routing Matrix
